

Old drive unit technology bringing you down?

As your drives approach or surpass their standard life expectancy, the chance for component failure increases exponentially. Don't wait for your machine to go down! Trade-Up for the newest technology to ensure your machine runs at its peak performance.

Take advantage of Okuma's Trade-Up program and get an extended warranty and up to \$2,000 for your old drives when upgrading to the newest technology!

If you are ready to upgrade your obsolete Okuma drive units, Okuma will credit you for the old or defective units AND give you an additional 2 years on the warranty of the new drive unit - that's a total of a 3-year warranty!

Trade-in a BL-D or a BL-2D, receive a \$1,000 credit with the purchase of a BL-3 or BL-4. Trade-in a VAC-I, VAC-II, or VAC-III, receive a \$2,000 credit with the purchase of a VAC-5.

Still not ready to upgrade? Okuma has reduced the price on certified repair and return options by 20%. Contact your local Okuma distributor for promotion details and a list of the affected drives.

To find your local Okuma distributor, visit www.okuma.com/distributors.
